

Quality Policy :

We construct our quality system to handle & control all activities & operations under our company to ensure best services for all our customers' world wide and we aware that our management system is complying with all international regulations for Safety Management Code at sea & ISO regulations & all its amendments for Risk analysis & Risk assessments which gave us chance to manage ships under different governments and we was very concerned about time & money when we construct our system as we believe that any management system must concern about time & cost as well as it concern about safety & quality.
